Question: Do I code the COVID vaccine the same way I code other vaccines?

Answer:

NO! Coding for the COVID 19 vaccine is completely different. Each brand has its own CPT code and set of administration codes:

Pfizer Vaccine -

- 91300
- 0001A- First dose
- 0002A- Second dose

Moderna -

- 91301
- 0011A- First dose
- 0012A- Second dose

**As of now, there is no guidance on how to bill the Johnson & Johnson vaccine. *Please remember, it is important to use the correct code to prevent denials.*

QUESTION: What does my internet speed mean (100x10 or 100x100)?

ANSWER: When you subscribe to an internet service, the ISP (Internet Service Provider) will reference two numbers. These numbers refer to the download and upload speeds in Megabits per second. The higher number of the two will be the download speed. If both speeds are the same, the internet service is considered symmetrical.

Breaking the Cycle of Broken Appointments

When patients miss their appointments, it not only disrupts the flow of your office, but impacts your bottom line. One of the best ways to help ensure your patients keep their medical appointments is to establish a missed appointment policy. For more on this and six additional tips to help your practice encourage accountability, read on. [\[READ FULL ARTICLE\]](#)
